SUBJECT: 2003 EXTERNAL STAKEHOLDER RESPONSE TO FEDERAL REGISTER
NOTICE, "SOLICITATION OF PUBLIC COMMENTS ON THE FOURTH YEAR
OF IMPLEMENTATION OF THE REACTOR OVERSIGHT PROCESS"

Dear Mr. Lochbaum:

On November 5, 2003, the Nuclear Regulatory Commission (NRC) issued a *Federal Register* notice (FRN) soliciting comments on the fourth year of implementation of the Reactor Oversight Process (ROP). The NRC received your comments as well as comments from 17 other external stakeholders and/or organizations in response to this FRN. The NRC welcomes these comments, as they provide perspectives on how external stakeholders view the effectiveness of the ROP, and considers these comments when evaluating changes to the ROP.

The staff issued SECY-04-0053, "Reactor Oversight Process Self-Assessment for Calendar Year 2003," dated April 6, 2004, to present the results of the staff's annual self-assessment of the ROP. The annual self-assessment uses several diverse data sources, including feedback from internal and external stakeholders, objective metrics, and recommendations from independent evaluations. Although this paper does not directly address every comment received in response to the FRN, all comments were considered and many of the comments have been addressed throughout the paper. In particular, staff analysis of the survey responses is included in the applicable portions of the program area discussions in Attachment 1 as well as the ROP performance metric report in Attachment 3. In addition, an overview of the external survey results is contained in Attachment 4.

A copy of the paper is enclosed for your convenience, and is also available through the NRC's Agencywide Documents Access and Management System (reference accession number ML040620267) or through the electronic reading room of the NRC Web page at <http://www.nrc.gov/reading-rm/doc-collections/commission/secys/2004>. The self-assessment conclusions will be presented to the Commission in a public meeting on May 4, 2004.

The staff appreciates your efforts to provide comments. Should you have any questions, please contact Mr. Ronald K. Frahm at 301-415-2986 or by e-mail at rkf@nrc.gov.

Sincerely,

/RA/

Dear Mr. Vassello:

On November 5, 2003, the Nuclear Regulatory Commission (NRC) issued a *Federal Register* notice (FRN) soliciting comments on the fourth year of implementation of the Reactor Oversight Process (ROP). The NRC received your comments as well as comments from 17 other external stakeholders and/or organizations in response to this FRN. The NRC welcomes these comments, as they provide perspectives on how external stakeholders view the effectiveness of the ROP, and considers these comments when evaluating changes to the ROP.

The staff issued SECY-04-0053, "Reactor Oversight Process Self-Assessment for Calendar Year 2003," dated April 6, 2004, to present the results of the staff's annual self-assessment of the ROP. The annual self-assessment uses several diverse data sources, including feedback from internal and external stakeholders, objective metrics, and recommendations from independent evaluations. Although this paper does not directly address every comment received in response to the FRN, all comments were considered and many of the comments have been addressed throughout the paper. In particular, staff analysis of the survey responses is included in the applicable portions of the program area discussions in Attachment 1 as well as the ROP performance metric report in Attachment 3. In addition, an overview of the external survey results is contained in Attachment 4.

A copy of the paper is enclosed for your convenience, and is also available through the NRC's Agencywide Documents Access and Management System (reference accession number ML040620267) or through the electronic reading room of the NRC Web page at <http://www.nrc.gov/reading-rm/doc-collections/commission/secys/2004>. The self-assessment conclusions will be presented to the Commission in a public meeting on May 4, 2004.

The staff appreciates your efforts to provide comments. Should you have any questions, please contact Mr. Ronald K. Frahm at 301-415-2986 or by e-mail at rkf@nrc.gov.

Sincerely,

/RA/

Dear Mr. Riccio:

On November 5, 2003, the Nuclear Regulatory Commission (NRC) issued a *Federal Register* notice (FRN) soliciting comments on the fourth year of implementation of the Reactor Oversight Process (ROP). Although you did not specifically respond to this FRN, the NRC considered your comments provided at the Commission briefing on May 15, 2003, along with comments from 17 other stakeholders that responded to this FRN. The NRC welcomes these comments, as they provide perspectives on how external stakeholders view the effectiveness of the ROP, and evaluates the comments when considering changes to the ROP.

The staff issued SECY-04-0053, "Reactor Oversight Process Self-Assessment for Calendar Year 2003," dated April 6, 2004, to present the results of the staff's annual self-assessment of the ROP.
